

ID10G

10 Mil Glossy Photopaper Aqueous Inkjet Media

PRODUCT DESCRIPTION

A 10 mil (270 gsm) Glossy photopaper. Instant Dry ID10G is a premium pe-photopaper meeting the demands for high quality photo-realistic reproduction. The ultra white base with microporous coating means your prints will be instantly dry and water resistant, while the thinner base allows you to save money and still provide photographic output. Universal compatibility is optimized for today's wide gamut printers. Instant Dry ID10G optimizes natural skin tones and more neutral Lab values. ID10G is also compatible in the HP latex printers.

SPECIFICATIONS

Physical Properties*

- Proofing, display graphics

Printer/Ink Compatibility

Recommended for use in most photographic and display graphics inkjet printers including: Epson® Ultra Chrome and K3 series, Vivid Magenta series, Canon imagePROGRAF series, as well as Hewlett Packard® Z series and HP5500 series printers. ID10G is also compatible in the HP latex printers. Choose the HP Professional Photo paper setting when loading your media.

Application Instructions

Please refer to Finishing Tips.

Finishing Tips

Prints may be laminated with pressure sensitive or low melt thermal laminate for additional scratch and moisture protection.

Important

Printer and driver settings need careful set up to help ensure the best performance. Appropriate ink loads must be set for the ink/printer combination being used.

This information is presented as a general guide and is not a performance guarantee. The user should independently determine prior to use the suitability of the material for the specific purpose.

ICC Profiles

ICC Color profiles can improve image quality and optimize ink limits for improved drytime, wider color gamut, and accurate color matching.
