

DGI SIERRA HEAT PRESS

Affordable Solution for Dye Sublimation Production

Canon Solutions America partnered with DGI, a manufacturer with deep roots in dye sublimation, to deliver printers and heat press solutions that combine DGI's highly productive printers with Canon Solutions America's robust support services and market expertise.

The Sierra heat presses offer print service providers an affordable solution for dye sublimation fixation. The heat presses utilize a 13.7 inch oil drum for uniform heating across the paper and fabric. With the three different table options, print service providers can run the heat press with single pieces or rolls of fabric. The presses are available in 1.6m, 1.8m and 3.2m widths.

Heat Press Specifications

	DGI Sierra S64	DGI Sierra S74	DGI Sierra S124
Drum Diameter		13.7"	
Working Width	62.9" (1.6m)	70.8" (1.8m)	126" (3.2m)
Drum Type		Oil Drum	
Max. Temperature		446 °F (230 °C)	
Optional Table Lengths	10.6", 27.1", 43.3" (270mm, 690mm, 1,100mm)	10.6", 27.1", 43.3" (270mm, 690mm, 1,100mm)	-
Power Requirements	3 Phase, 15 kW 240V(36A) / 380V(23A)	3 Phase, 17 kW 240V(36A) / 380V(23A)	3 Phase, 25 kW 240V(36A) / 380V(23A)
Dimensions (LxWxH)	94" x 72" x 63"	102" x 72" x 63"	168" x 65" x 70"
Weight	1,874 lbs	2,094 lbs	4,850 lbs
